PROFESSIONAL SUMMARY

Full-Stack & Database Consultant with 4+ years of experience optimizing legacy enterprise systems and building real-time data dashboards. Specialized in slashing SQL query times, automating manual reporting with ETL/LLMs, and migrating insurance/finance platforms to modern architectures. Proven track record of reducing processing bottlenecks by 40% and eliminating 70% of manual analyst work. Fluent English (B2) with remote-first agile experience.

CORE COMPETENCIES

- **Databases:** Oracle SQL Developer, MySQL, Query Optimization, ETL Pipelines
 - **Backend:** Java, Microservices, REST APIs, XML Integrations, JUnit
 - **Frontend:** React, Angular, Node.js, JavaScript, Responsive UI/UX
 - **AI & Automation:** LLM integration for data pattern recognition, process automation
 - **Methodologies:** Scrum, Azure DevOps, CI/CD, Unit Testing
-

PROJECT EXPERIENCES

Real-Time Sports Data & Automation | *Sports Trader Analyst* (2024–2026)

- Built monitoring dashboards that process live market data, enabling faster trading decisions.
- Automated 90% of manual pattern-recognition tasks using SQL + LLM models.
- Documented data workflows to ensure replicability across global teams.

Legacy Insurance System Modernization | *Software Developer* (2022–2024)

- Optimized Oracle SQL queries for CoreLife policy systems.
- Refactored monolithic XML integration layers into maintainable microservices, reducing deployment failures by 60%.
- Implemented a staging environment to test changes safely before deploying to production using Azure DevOps pipelines

- Implemented 95%+ code coverage with JUnit unit tests under Scrum, ensuring zero-production bugs across 5 major releases.

Custom Dashboard & API Development | *Freelance Full-Stack Developer (2021–2022)*

- Designed and deployed 10+ REST APIs and responsive web apps using React + Node.js for small businesses.
- Reduced client data-entry time by 70% through intuitive admin dashboards with real-time filters.

TECHNICAL CERTIFICATIONS

- SQL Databases & Query Tuning
- Oracle PL/SQL
- Java / Microservices Architecture
- Angular + Node.js Full-Stack Development
- Scrum Foundation (Agile Delivery)
- UX/UI Fundamentals for Web Apps

EDUCATION

Software Engineering (In Progress) – UNIMINUTO, Colombia

Technical Systems Diploma – Instituto CESDE (2012–2014)

SOFT SKILLS

- Results-driven with a bias for action and deadlines
- Strong remote collaboration across US/Colombia time zones
- Clear technical communication for non-technical stakeholders
- Continuous learner (currently exploring advanced AI automation)
